**Subject:** Boundary: Patcham

**Categories:** Submissions, [REDACTED]

"Patcham" is our ward and lots of activities , friendly security and freedom.  
According to changing above ward, means councillors will loose some or what purposes with new boundaries means. I think it's utterly unnecessary divided the communities and making more harm.  
Years ago I remembered registering with doctors there were boundary issues.  
we go back to more complicated frustration over again. Who is getting more benefits with new boundary systems?  
Is the emergency, police and other services comes under new boundaries? I don't like at all. Leave Patcham as it is.  
Why council making trouble for residents? There will be trouble ahead now.

Regards
