### Comment text:

I strongly object to the proposed changes to eliminate Patcham's separate representation on the city Council. Patcham as a whole, has a specific identity with strong community cohesion and our local councillors actively represent us. There have been five generations of my family living in Patcham and I am horrified that the intention is to split the area so that our name is merged into that of others. We will lose the strength of our representation on Patcham specific issues and the loss of this voice matters! I am wondering what purpose this change serves? I do not believe this is to improve the lives of people living in the area but rather holds the possibility of serving the politicians, It is the inhabitants who should matter most. My attention to this change has only happened by chance and I suggest that the 'consultation' has not reached the majority of people to whom it will affect.
