Me and my partner dreamt of owning a home in Patcham one day and in 2019 we finally managed to buy our home to raise our 3 children here. The community is lovely; with the annual Duck Fayre and the Christmas lights at the Ladies Mile to name a few - we have a lot of family and friends in Patcham, some who have lived here for the entirety of their lives and some who are just as new as we are, moving here recently for similar reasons to us. If we wanted to purchase a property in "Hollingbury & Carden" we would have done so and wouldn't have fought tooth and nail to get our house in Patcham! The house prices for all of us will decrease significantly which is hugely unfair and my 3 children who are due to start secondary school within the next few years will have their catchment area changed - making it more difficult for them to attend a school that is quite literally a 3 minute walk from our house! I do not understand why on earth this is even being considered - if something is not broken, it doesn't need fixing. There is absolutely no thought for the people who live here at ALL and none of us can see the benefit in changing something is works perfectly fine as it is! Please do not take this away from us.
