### Comment text:

We strongly object to this proposal. We bought our house in the patcham location for a reason you cannot now change its address to be Hollingbury. House prices in Hollingbury are cheaper than patcham does this now mean that the value of our house will decrease. I think it's terrible that you have done this without personally consulting with us. Why weren't we address by letter as if I didn't have social media we would know nothing about this.
