Comment text:

I am a resident in Patcham, Mackie Avenue to be precise and I regard myself as part of the Patcham community. The community I travel through and see every day as I travel to and from my front door to do everyday stuff. I am very distressed that, if what I have read is a real proposal, the Patcham community would be split in two? We are a solid community and cutting us up in two makes no sense? For me, Patcham would not even be part of my constituency name and I would "feel homeless." The Mackie Avenue area, which you are proposing to push to Hollingbury doesn't even have a road linking the two areas. There is a massive hill in between. It would be a cut off area. Ironically you'd have to travel through Patcham to get to Hollingbury. It's a nonsensical idea. Please stop this crazy idea now. I object to the proposed change and wish to keep Patcham together and Hollingbury as it was. The two communities have strong identities and have different issues. The big one at the moment for Patcham is the proposal for the Royal Mail to build a large sorting office in Vale Avenue. This has big consequences for Patcham, Mackie Avenue and surrounding streets in Patcham and zero consequences for the streets of Hollingbury. Such a community led event would be very difficult if things were changed by your proposal. The community of Patcham have come together, as they always do, united in their fears and objections with this massive proposed overdevelopment. Please don't split us (Patcham) apart, we work better as one community.
