### Comment text:

As a 49 year resident of Patcham, I'd like to put on record my strong objection to the splitting down the middle of a ward and community that has existed for the whole of my lifetime for no good reason. A ridiculous proposal that even splits the Patcham clock tower so that one half will be in a different ward! Ridiculous! It's also disgusting that the residence that this effects haven't even been informed of the proposals or asked for their opinions. This should of been posted through the door of every family it impacts! Yet another stealth move by government....
