### Comment text:

I would like to object to the proposal of splitting the Patcham ward in to two, how will we deal with any issues that arise in the future or are ongoing at the moment if half of us are Westdene and the other half Hollingbury. How will local councillors from opposing wards be expected to solve anything that affects Patcham as a whole. Are we to loose are own identity and not have a united say in the place we live. Surely there is a different solution than splitting a community in half.
