### Comment text:

Patcham has long been a big community and it has long been served very well by its local councillors. This proposal splits it in a completely arbitrary fashion. This is also a cynical ploy to break up the Conservative vote in Patcham and make the area split between Labour and Greens. This proposal offers no value whatsoever to the residents of Patcham. It will make my area part Westdene, which has nothing whatsoever to do with Patcham. The new ward we will be in will be huge. Far less personal than it currently is.
