Comment text:

I strongly appose this boundaries and voting Change I have lived in patcham for over 40 years I run a business from Patcham my house was sold as a property in Patcham therefore house prices will nose dive and schools will be brought into this ad catchment areas will be changed I particularly purchased a house in Patcham not hollingbury why is it necessary to alter the area boundaries what will the council benefit from doing this ? You are not considering the thoughts or needs of the residents of Patcham please you have ruined Brighton with your foolish ideas and schemes leave our area as it is please. I run my business from Patcham not Hollingbury I repeat this will have a massive impact on schools catchment areas and house prices will go down I have lived in brighton in the hollingbury area most of my younger life and hollingbury is associated as being a bad area with council flats and council houses by dragging patcham into this new hollingbury area we will all have our houses reduced in value over night I must as a business nan and resident of Patcham appose this idea in the most strongest form
