Please keep dyke park and BASVIC in the Hove ward

Changing this would separate the park from the residents who live next to it and places it and the playing fields in another ward. There is a triangular area that runs between dyke road, the old Shoreham road and the upper drive - this cannot be separated out - it's one landmass - with the same issues and concerns.

The boundary line itself does not make much sense as it does not follow a visible physical feature as the railway line cannot be seen given it is underground.

The roads should be followed?

Thank you
