Comment text:

Patcham is currently represented by its own councilors which I think is very important and cannot be diluted. There are many reasons for this, but primarily the direct housing of such major A-Road links makes some of the issues and concerns of residents unique to the area. The area also houses many vulnerable and elderly citizens which requires a lot of support and attention, that'll only reduce if the wars boundaries are altered. The boundary faces challenges over water supply, flooding and lack of council development, all of which our councillors try and fight for on the community's behalf. Lastly, we run right next to the South Downs which also represents its own set of challenges that are unique to this area. Thank you for your consideration. I hope the Patcham ward will remain unaltered.
