As recorded on a previous public consultation. I do not believe the new Melton Road development has anything in common with Edwalton Village. Edwalton Village forms part of a Conservation Area, Contains a Listed 800 year old Parish Church, along with other Listed Buildings. Many planned Community Amenities (Schools, Community Halls, Public House, Allotments etc) are proposed for the new development separated from the Edwalton Village by the A606 highway! I`m sure Property Developers along with Estate Agents welcome "The Sharphill Development" to be linked with the title EDWALTON. Why should the existing Edwalton Village Ward be re-titled? Could we please retain some identification of the Village?
