Comment text:

I am opposed to the creation of the new Trent Bridge Ward. This is made up of two distinct districts, Trent Bridge area and Lady Bay and they should remain so. Each has its own character and Lady Bay in particular is already a clear geographical entity, bounded by the A52, the Trent river and the Green Belt. We don't always share the same interests and I can't see how councilors can realistically cover both areas. It is not a coincidence that Lady Bay consistently returns two Green Party Councillors with large majorities, Trent Bridge does not. I'm not a Green Party supporter but this illustrates the distinct nature of Lady Bay, which should be preserved. It also illustrates that subsequent elections are likely to risk producing a different mix of successful candidates, thus denying an electoral voice for one or more parties. So I regard the proposals as undemocratic. and unrepresentative, which surely should be grounds enough to reject them. Please leave Lady Bay alone.
