Comment text:

Stratford District Council and The Boundary Commission are as part of the Ward changes proposing new Wards covering Southam, Long Itchington and Stockton. I think putting part of Southam North with Long Itchington and part of Southam with Stockton is plain stupid. Long Itchington and Stockton have very different needs and identities from Southam. The Ward proposals go against all guidance that The Boundary Commission give for Wards. It is important for residents of Southam, Long Itchington and Stockton to stand up and protect their community identity In my view a far more sensible option is to retain the existing Long Itchington and Stockton Ward and Southam having a three Councillor multi-member Ward as it was before 2015 to ensure that Councillors can truly represent their communities.
