### Comment text:

I wish to strongly object to the proposal where Peopleton would be put into a Ward with Drakes Broughton for the following reasons: Drakes Broughton is a much larger village / bordering on becoming a small town with recent developments. We have very little in common with DB as Peopleton is a smaller village with a more rural identity and issues. We would be competing for resources with DB including with the Councillor's time as DB is much larger given it's current expansion. The A44 is a boundary line between our two settlements - why does this make sense? It separates the two places both physically and naturally. Peopleton's youngest children go to schools in Upton Snodsbury and Pinvin so it makes more sense for us to stay aligned with those two villages as we also share community resources with both of those places. Our current Councillor, Linda Robinson, has a strong relationship with Peopleton and is always an active supporter of our Ward when there are issues, celebrations and communications. We would be competing with the Councillor's time from the Drakes Broughton Ward and with someone who does not have awareness of our issues and concerns. Once again, I stress that we would lose out as DB expands further. In summary, please record my strongest objection to moving Peopleton to the Drakes Broughton Ward as the comments I have made above confirm that it is such a poor proposal. Please review it and leave us with Upton Snodsbury. Many thanks for your attention in this matter which is of the utmost concern to me and the other villagers of Peopleton. [REDACTED]
