Please could you add my opposition to the proposed boundary changes for Great Comberton and Little Comberton. The submission provided by Little Comberton Parish Council articulates the reasons I object to this change very well. The villages of Elmley Castle, Great Comberton and Little Comberton are one community with similar issues and interests, shared clubs and groups. As a resident of Great Comberton, I do not believe that our village and community interests will be as well served if we are clustered with other villages as proposed and for this reason object to the proposed boundary changes.
