Comment text:

Wick is a small rural village and we have an active Parish Council. Our annual meeting is well attended because residents are interested in local matters especially those affecting the village. If Wick was to become part of the Pershore ward which currently has 3 Councillors then the major concern is that Wick would effectively have very poor representation, if any. Our present Councillor has an excellent understanding of rural matters and the system works well and has done for a number of years. The main reason for the proposed change seems to be to get the spreadsheet to work and is an extremely poor reason. Lynne Raymer Chair Wick PC
