### Organisation Name:

### Comment text:

I am shocked at the ridiculous suggestion to reduce the number of councillors from 128 to 98. This represents an increased caseload of over 30% for each councilor. It reduces representation for every constituent. Reduced representation equates to reduced democracy. I see no mention of a corresponding reduction in council tax? Nor is there any mention of a corresponding increase in councillor's allowance/salary. The lack of publicity and clarity surrounding the whole review process is shameful. You give the impression that public consultation is a sham and that the outcome is already decided.
