### Comment text:

I support the latest proposals for the four wards and would comment as follows, I welcome the removal of New Denham from the previous proposal to include this with the Ivers electoral division as there are no community relationship between these two areas. The new proposed ward for the Farnhams & Stoke Poges now includes the surrounding smaller Parishes of Wexham, Hedgerley & Fulmer which are closely aligned with the larger Parishes and in previous ward boundary reviews have been combined in various combinations. This will also produce a three member ward which will ensure adequate coverage for the five Parishes which have similar challenges and concerns.
