Comment text:

To local government,

My postcode is SL9 [REDACTED] and I live on Packhorse Road Gerrards Cross. The new draft proposals for Gerards Cross are great improvement and I would support them. The previous idea of the huge split dividing Gerards Cross would have been very detrimental to the town and very difficult for counsellors to support 2 halves of a community.

Any community needs a strong voice in order for it to flourish and represent the inhabitants.

I would like to think that it would help better quality resurfacing of our road, which is the main road going through Gerrards Cross and which has a dreadful surface. Hopefully stronger representation will also help save on green spaces which are vitally important in keeping up the beauty of the area.

The proposed new boundary better reflects the community and the interests of the local people.

Your sincerely, [REDACTED]
