Comment text:

I am in full support of the revised proposal from the Local Government Boundary Commission. It makes absolute sense that Gerrards Cross Town and Denham parish in its entirety are contained within one ward. It also makes absolute sense for Austenwood and Kingsway to remain in Gerrards Cross as the residents of these roads identify them selves as being in Gerrards Cross I understand that the local schools and sports clubs support this as Maltman's Green School, Thorpe House School, Gayhurst School, Gerrards Cross Bowling Club, Gerrards Cross Tennis Club all regard themselves as being in Gerrards Cross and advertise the fact The revised boundary proposals make things more straight forward for us residents as the original proposal would have meant that Gerrards Cross Station would predominantly be in Chalfont St Peter which would have been ridiculous. I request that the Local Government Boundary Commission implement these revised proposals without further modification which creates a more well balanced situation in regard to numbers, community cohesion and equality of representation.
