## Comment text:

We have lived in Fulmer for over 50 years and recently saw the commission's proposals to include Fulmer in a council ward with Wexham and Farnham instead of Gerrards Cross.

We have very little to do with Wexham apart from the occasional hospital trip and even less to do with Farnham. We are in Gerrards Cross most days to use the local shops. The church we attend in Fulmer is part of one church of two St. James with the one in Gerrards Cross. I think that the council issues facing Fulmer and GX are more similar than those of Fulmer and Farnham - being issues of green belt planning and fly tipping in the lanes as well as community engagement rather than managing Slough expansion. Schooling is quite distinct with our grandchild always looking North to GX and beyond for primary and secondary education.

We would consider that the current proposal to put Fulmer with Farnham instead of GX is dividing up the community and less effective when it comes to solving local issues.
