Why is the east of Wellingborough in the Finedon ward and the north of Wellingborough in Earls Barton? There is 2 new developments of around 3000+ houses each in the north and east of Wellingborough that have been lumped with villages that are not part of the urban area of Wellingborough? Why is a councillor that represents finedon going to be interested in something that is going on in the senwick drive area of Wellingborough or Stanton Cross? The answer is they won't so please consider putting these areas of WELLINGBOROUGH in a WELLINGBOROUGH TOWN WARD and not lumping them onto other wards to make up numbers
