Comment text:

I object to the Boundary Commission plans for Ward changes in High Brooms Tunbridge Wells. I have lived in High Brooms all of my life. The Community is part of Southborough and we should not be carved up with bits stuck on some new Tunbridge Wells North Ward. You are cutting right across the boundaries of our Southborough Town Council. My grandchildren go to St Matthews School. You are planning to put this into a different Ward from our St Matthews Church and from many of the homes of the children the school serves. It makes no sense . What will happen on election day – will people have to go to two polling station – one to vote in the Town Council election and another – probably miles away – to vote in the Tunbridge Wells Borough Council election. I attach the crest of the St Matthew's School – you can see that it is the local "broom" that grows around the area and "bricks" to represent the former High Brooms Brickworks that all the homes around are built from. Your plans ignore all this community spirit in the neighbourhood and our history. No one likes your plans and you need to stop and change them to ensure that Southborough and High Brooms stay as one.
