Comment text:

Under these proposals, Frittenden, which is already the most outlying part of Tunbridge Wells Borough, will be rolled into a share of representation within Cranbrook. The village is currently represented with Sissinghurst and has a councillor who lives in the village and works hard on our behalf. Despite this, TWBC already does very little indeed for the village with the vast majority of its focus on TW town itself. If the proposed changes go ahead, bearing in mind the huge number of houses being imposed on Cranbrook, Frittenden is unlikely to have any significant representation whatsoever on TWBC at a time when it is critical. This will effectively disenfranchise Frittenden's voters. I would suggest that, if these changes go ahead, we should pay significantly less council tax, to demonstrate the lack of support from the council and the lack of representation we will experience.
