### Comment text:

I object to the proposal to regarding Southborough and High Brooms I support the submission made to you by Southborough Town Council. There is no community synergy between most of Southborough High Brooms and Bidborough so merging them into a single ward would be detrimental to the residents of both. There is some community synergy between the north west of Southborough North ward and Bidborough. The residents of the area around Birchwood Avenue, Bounds Oak Way and Harland Way should be consulted about their opinion regarding a possible merging with Bidborough. Other than this possible amendment the existing boundaries of Southborough and High Brooms should remain and residents be represented through Southborough Town Council It seems to me that your present proposals have been made without any local knowledge
