The splitting of Goudhurst and Kilndown for the sake of numbers in the new suggested arrears for voting must have been done by a robot or alien.
Any intelligent being would know the two are one as a parish with no connection to the areas this robot has allotted them. I have lived in Goudhurst for nearly Thirty years and each supports the other for church, shops, Doctors, Garden Clubs, U3A, etc etc, as one unity.
Please please use intelligence and common sense in this decision not robotic numbers And CHANGE things, Goudhurst and Kilndown are combined as one parish and group of people and must stay that way not divided by robots.
Very Sincerely
