Subject: Proposal to change electoral wards.

My wife and I are absolutely appalled at the proposal to divide our parish into different electoral wards. For the last 26 years we have lived under the present arrangements, 20 of which have been spent in a property between the two villages and 6 in the centre of Goudhurst. Our social activities take place in both parishes and we regularly attend Christ Church in Kilndown.

There are no logical reasons why the proposed changes should take place and split an arrangement that has stood the test of time. This proposal is a prime example of blind bureaucracy going against the interests and the wishes of the residents who live and socialise in Goudhurst and Kilndown.

Yours sincerely,

[REDACTED].
