Comment text:

I am writing as a resident of Southborough to oppose your suggested re-warding of Southborough and High Brooms under your current boundary review proposals. This town has a strong and independent identity and those of us who live here like that. We identify with its history and all of the good things it has to offer, its clubs, schools, churches, local charities, scout and guide groups, football clubs, shopping areas, town council and library. We see ourselves as very different to Tunbridge Wells and it is because of this that I was unhappy to see that you are proposing new ward boundaries that include parts of St John's Ward and Speldhurst and Bidborough Ward. If this happens then our well known councillors will lose their Southborough and High Brooms focus. I support the proposal put forward by our town council to have 2x2 councillors representing slightly different Southborough and High Brooms, and Southborough North Wards respectively. And that these wards should be wholly within the existing town council boundary. I am sure that this proposal carries a lot of support.
