Comment text:

Related subject: Preston Capes

It is ludicrous to think that there would be any benefit at all for Preston Capes to become part of the proposed new Silverstone ward. Notwithstanding the fact that there has never been any affiliation with Silverstone, the geographical location of Preston Capes lends itself more readily to the services of the Woodford and Weedon Ward. To redefine boundaries would cause nothing but confusion, chaos and major disruption to the lives of all residents of Preston Capes.
