"Stone Urban division should contain the whole of that part of Walton that is currently within Stone Rural, namely the ward of Walton North. It makes no sense whatsoever for one part of Walton, the ward of Walton South, to be in the Stone Urban division, whilst the other, the ward of Walton North is in the Stone Rural division. The people in both parts of Walton, the wards of Walton North and Walton South identify strongly with Stone. They shop in Stone, they use the professional services in Stone they use the health services and social facilities in Stone. They do not identify in any way, shape or form with, or use the facilities of, Milwich, Hilderstone, Fulford or Barlaston, fine places though each of these are. It therefore makes for a more coherent solution to include the ward of Walton North within the current Stone Urban division since any decisions taken on, or by, that division will directly impact upon those people residing within the boundaries of the ward of Walton North. I therefore request that the ward of Walton North be included within the divisional boundary of the current Stone Urban and that division be re-named as simply 'Stone'".
