Related subject: Nunnery Ward

Woodland Edge is a new build estate established in 2020 and stretches from Williamson Road to Lilburne Close and Cranbourne Grove.

My view is that all of these roads and those within the estate should all be part of the same ward.

This is because there is already strong sense of community within the estate, with an established community Facebook group, social/community events and the setting up of a community council. To break up this ward would undermine all of the above.

I strongly believe all of woodland edge should be kept within the same ward.
