Comment text:

Corse and Staunton have no benefit from being in the Forest of Dean.

- I have no functional bus service which enables me to access council offices/ facilities
- I cannot access any area by bus ,except Tewkesbury, without going into Gloucester.
- When flooding occurs we are cut off from the FOD and Gloucester
- Our community can relate to and access more readily the town of Tewkesbury which affords most services we require including a market, hospital, library, theatre etc.
- Tewkesbury is our nearest town.

I believe the boundaries in this area should be adjusted in order to enable this community to take part in the basic elements of citizenship.
