Comment text:

Having considered the information in the proposed review, Newbiggin by the Sea Town Council object to the proposed changes at Parish level - the proposal to mirror the proposed County Ward Boundaries lead to disproportional representation at Parish Level.

We urge that if it required to make changes at County Level that the parish boundary be left as it is and be changed so only one County Councillor be appointed to represent the entirety of Newbiggin by the Sea.

If changes do proceed as proposed, we would ask that the parish west ward boundary be realigned so that the Spital Estate play park remains with the Spital Estate – this would have no affect on the representation of households but this is a facility that is predominantly used by residents of the Spital Estate and funded historically by the Councillor that represents the Spital Estate.
