Related subject: Cleadon and East Boldon

In last review part of Langdale Way and the whole of Lilburn Close, East Boldon was removed from the Cleadon and East Boldon ward and added to the adjoining Boldon Colliery ward to make up numbers for that ward. Since then the population of Boldon Colliery ward has grown and is now larger than Cleadon and East Boldon. Residents in these two streets identify themselves as being part of East Boldon and indeed part of Langdale Way remained in Cleadon and East Boldon ward. Boker Lane is a more definable boundary between the two wards and the field north of Lilburn Close was proposed for housing development in the latest version of the Local Plan .Although this proposal was not supported by the local community.

East Boldon Neighbourhood Forum boundary includes the whole of Langdale Way and Lilburn Close within its area.

In view of this I request that Langdale Way and Lilburn Close are returned to the Cleadon and East Boldon Ward.
