Comment text:

This proposal is nothing more than an attempt at controlling the power of each ward by South Tyneside Labour. Recently, the Green Party and Independent Councillors have been performing very well in local elections meaning some wards have lost the Labour majority and others are close to losing there majority. This proposal would be a blatant attempt by Labour at keeping that power and majority in each ward and go against what the people of South Tyneside have been voting for in local elections.
