## Comment text:

Hello

I have lived on Hastings Hill for over 34 years and enjoy living in this area being connected to the other estates in our boundary area.

I dont understand why we are being considered moving over to join with Pennywell.

There is the A183 dual carriage way between us and Pennywell as against the park extension and green areas which at present joins our estates at present which works great.

We are well connected with public transport between the estates and not to Pennywell which could alter.

We are well covered with health services and schools and if we change the catchment areas may alter causing problems for parents and people.

All in all what we have now works well.

The old rule still works today

IF ITS NOT BROKEN DONT FIX IT

Many thanks [REDACTED]
