Related subject: Boundaries

There is a sense of community here in Menston and more so in Burley in Wharfedale but we have no confidence that the Bradford authorities understand or support our community, particularly in regard to planning and infrastructure to support new building. Because we are split by the Leeds/Bradford border, we feel that both authorities see us as a cash cow for council tax without any need for support services. I feel the whole of Menston and the wharfe valley should be represented by one local authority working to improve and sustain the area in a coordinated plan.
