Related subject: Menston

The support from Bradford council is a joke. Why do we pay our tax in order to waste money on the poor city centre?
Build a big wall around it and let the rest of us lead our lives without subsidising someone else's vanity project which hasn't given any return on all the money ploughed in.
I would be far happier if Menston was removed from Bradford council control and at least our tax payments could go on something worth while.
