**Related subject:** Whoberley

Highland road, Coniston road and Aston Road have more in common with Earlsdon than Whoberley. We share facilities and local problems with Earlsdon...not Whoberley. From the other side of Hearsall common we are too far from the issues of the actual ward we are in. Left in limbo the three roads (which form a loop) are left forgotten and unloved. We share schools, clubs, shops, public areas and road access with Earlsdon. Concerts like Godiva affect our parking and events on the high street are supported by our residents. The new urban plan for Earlsdon, that will put pedestrians first, will hugely effect us, but we are ignored because we have been dumped in the wrong ward. We need an appropriate council representative for Earlsdon...the area that actually effects us.

In contrast the houses between tile hill land and Broad lane rarely, if ever, get involved with Earlsdon and its activities. They should be in Whoberley...not Earlsdon! Why are these two sets of roads seemingly in the wrong wards? Please can you fix this and move Highland, Coniston and Aston into Earlsdon Ward.
