I am living in Bramble Street [REDACTED] area.

The past 5 years more than ten taller Buildings mostly students accommodation built-in. The population increased. Shortage of parking. Roads are very narrow and mostly one way. There is no community center near by. Too many take away and restaurants make environmental problems. More than 6000 thousand students in the areas. In share accommodations up to ten students living in two bedroom properties. Weakly bin services and poorly cleaning make plenty of mess.

Hillfield area is currently part of Foleshill ward that's very far from actual Foleshill areas.

My suggestion is to include Hillfield in St. Michael 's Ward. It should help reduce congestion. People of CV1 [REDACTED] areas and Far Gosford street to use two community centre in Hillfield. There is need of one wide road and bridge over sky blue road to connect Highfield and above mentioned areas.

The council must stop construction of unplanned more than one multi storey building in every street.

Kind regards
