Related subject: Bloxwich east Ward boundaries

Current ward has undistinguished boundaries in and around Bloxwich South borders with Bloxwich West blakenall and birchills leamore residents find it confusing. Suggest remove sometfield, Irvineand nursery roads plus reeves Stuart and Stokes Street back to Bloxwich west. Add the A34 Stafford road and feeder closes Lydford, Thurlstone, dukes Grove, beech wood and enderley drive to blox East from West this has a natural boundary of kgv Park and no inter connecting roads currently the dividing line is the a34 which again leads to confusion one side in East one in West. Also the new wryly view estate and Henley close could be added again confusion with this blakenall Ward juts into Bloxwich east using goscote Lane very confusing fir residents these changes would serve to link up like community network structures and even up the numbers of eligible voters giving a more geographical uniform layout.
