Comment text:

I used to live in Gateshead Town centre and now I live in Crathie , birtley. Myself and the other locals I know still use gateshead and newcaste as their main shopping areas, doctors etc. Tesco in gateshead is far cheaper and more well stocked and than morrisons at birtley.

I also use the vue cinema regulary.

I rely on the angel 21 bus as my only connection for home too My work, shopping and all my things. This bus is based in Gateshead depot.

I use Queen Elizabeth hospital which is in gateshead.

I consider myself part of gateshead and it should remain that way.

I do not travel to chester le street or Durham as there is no markets ,cinema and the shops are frw and far between.

I love the parks such as Saltwell Park, Riverside park, they are my favourite and we just don't have that down chester le street or birtley.

I consider myself part of gateshead and it should remain that way. Changing the ward of birtley back too being part of Durham Council again, would be really disappointing me and cause me many problems. First off it increase my bus fares by £50 a month. It would make me travel far less to gateshead and I would lose a huge part of my everyday routine and life that I enjoy so much.

Birtley should be part of gateshead

Sincerely johnathan
