Comment text:

Haslemere Town Council. I am writing to object in the strongest terms over the proposal to rename the 'Western Villages' to 'Frensham, Elstead and Hindhead'. At the moment the term 'Western Villages' is inclusive of all of the villages to name three of them and exclude reference to the others serves to create some kind of hierarchy which is not at all helpful. Why have these three been chosen to be named? Beacon Hill village is larger than Hindhead but remains excluded? What is even more perplexing is that the current 'Eastern Villages' are proposed to remain! Why keep Eastern Villages but propose to rename Western Villages? Haslemere Town Council believes that this proposal is badly conceived and asks that the name of Western Villages is unchanged.
