We strongly object to the proposed name change from Waverley Western Villages to Frensham-Elstead-Hindhead. There are a number of villages within this division not just the three named on the proposed name change. To therefore change the division name to Frensham-Elstead-Hindhead will seek to ignore the existence of the other 5/6 villages and their residents who should have an equal voice to the aforementioned named places.

This division has a long standing association with the name Western Villages - we are collaborative and work together equally on a number of issues and this unity would be disrupted and the division would become unbalanced if the name was to be changed. We would urge you to retain the name Waverley Western Villages so that the identity and value of the other villages can be preserved.
