Related subject: Stebbing

It looks from the proposed boundary changes that you wish to move the village of Stebbing from the Saffron Walden Constituency to Braintree. I strongly disagree with this proposal.

Stebbing is most closely served by the amenities in Great Dunmow, due to remain in the Saffron Walden constituency. Our children's schools and health services are in the Saffron Walden constituency. The only reason we would have to travel in the direction of Braintree is to visit the out of town retail park.

Stebbing is a thriving village most ably served by its own community. What limited services we receive beyond that could best be improved by offering more links to the West and North of us in the direction of Stansted, Bishops Stortford and Saffron Walden, not to a hollowed out shell of a town in Braintree.
