Related subject: The Dittons

Regarding splitting Long Ditton and Thames Ditton. This one community integrated at it's heart with facilities used in both directions. The community has diverse facilities as a result. We identify as "The Dittons". There are many way we are integrated, but essentially we one local area with a centre located in between us which is the opposite side to Hinchley Wood which propose to join Long Ditton with and with which we have very little to do as it's centre is some distance away. Please don't split our community.
