## Comment text:

To: the Review Officer

Your proposal to move Weston Green into a different division that is separate from Thames Ditton has just come to my attention, and I am appalled.

Weston Green has been part of Thames Ditton since the 12th century; together we've been part of the same division since the first council was established in 1895. We are one single tightly-knit community with one single councillor – it's an arrangement that has served us brilliantly. This change will have the effect of dividing and weakening our collective voice, not to mention the absurdity of having two councillors serving one community. We do not want it.

Kindly register my strong objection to this proposal.
