Related subject: Proposed Boundary and Ward changes

I am a resident of Oxshott, I have been resident here for 23 years. In that time I have seen many futile attempts to stimulate an Oxshott community, beset by ever increasing through traffic and little parking provision and a negligent local government.. Then over the last 5 years thanks to the efforts of a small group of energetic young people we have witnessed a re-birth of shops, meeting places, and community. All this has been achieved with little or no help from government. If one wants to shop in Oxshott one has to pay a local "tax" in the form of minimum parking charges and yet Oxshott shops thrive.

Just look at the facilities on offer now in Oxshott. A transformation has been achieved.

Along comes the local govenment agency and suggests splitting the community down the middle following the line of the curse that is the A244. This is so stupid as to be laughable.

Oxshott is a community, it faces the same challenges as other local communities. These require a considered view of the needs of the whole community. There is no difference between East and West Oxshott in terms of community need or representation. The proposal is arbitrary and has no basis in need or fact.

Please maintain Oxshott as one place and lend your support more vigourously to the achievements of local enterprise.
