## Comment text:

**Related subject:** Splitting of Oxshott

I honestly thought this was a joke, or spam, when I first heard about the proposal, and then realised it wasn't April 1st. My family spent years looking for our perfect location to settle down in, and to enjoy our next 20 years or so. Oxshott was that perfect place as it offered an unparalleled community feel and spirit, community clubs like OVSC, local family-run shops, and the excellent community association FEDORA. I do not want my home and community to be carved up to serve some idiotic scheme from which there are literally no benefits to be derived, except perhaps for easier administration for the local authority and council. I will fight this proposal at the highest legal levels if it is passed for approval. I chose to live in Oxshott, and will stay living in Oxshott.
